

Helpful information for ordering Custom Cutting edges for Back-up Ripper Enhancement

Deere 128" Standard Cutting Edge
T18798847 & T187243-4

Call Marg at Bucyrus Blades - 866-802-6878

http://www.escocorp.com/bucyrus_blades/

She will need to know what dimensions you would like the blades to be. For Reference this page shows the dimensions of the Standard Deere Cutting edge.

T18798847 & T187243-4

Building a 12" tall blade will add 1" of cutting edge to the blade and additional 1" clearance for the back-up rippers.

(Please verify all dimensions shown with your own records, this information is subject to change without notification)
